My name is Emily, a senior high school student from Taiwan. I'm glad to know you through postcrossing. It's great to learn that you like cats because I like cats, too. Maybe we can share cats' pictures with each other. My country isn't very big but it's full of beautiful scenery, especially the night view. I also want to visit Germany, maybe you can introduce your country to me. Hope you can visit Taiwan someday. Look forward to your reply.

Sincerely,

Emily 10/3

Hope you'll  
like them!!

# HUMANS IN DAZHI HIGH SCHOOL

The school staff that we decide to interview this time for our program is the canteen clerk. There are some reasons that we decided to interview her: for example, students in Dazhi High School usually buy lots of stuff in the canteen. Also, she is someone whom we have interacted with most frequently but we often overlook. That's why we ask her to be our interviewee.

We asked her many questions and here are some interesting ones. First of all, we asked her why she decided to be a canteen clerk, and she answered that she likes to interact with students. Second, we asked her why the canteen sells drinks but doesn't offer any straws. She answered that it didn't offer straws because the government had a new rule for school canteens. Last, we asked about which students' behavior she dislikes the most. She answered that the behavior that she can't stand the most is saying rude words and yelling.

Kai Hsu 許凱原

Next time if you go to the canteen, don't forget to mind your language and be quiet, or the canteen clerk might be angry. After this experience, I've learned the skill of interviewing and the importance of being polite.

The reason for our interview 🤖

In our school life, there is a person who stands in front of the school gate. That guy watched us go to school and come back home, even protect us in order to make a great learning environment for us. To some people he is obscure and unknown. But in fact he plays a important role. Do you know who he is? He is our security guard. Do you want to know more about him? Let's check out our interview. 🍷

# INTRODUCE 🚔

Can you believe that our security guard has been in Dazhi since 1986? How an unbelievable! Maybe you will be interested in "How come he does this job?" The answer of the question is that a bad case happened in the school, so that he wanted to do this job. He sometimes works in the office at 2:30 or 10:00 and deals with the problem of students' request leave of absence or controls the cars in and out. He doesn't need to work on weekends because someone will take over. The money isn't very much, but he thinks it is enough and he still wants to do this job in the future. 🍷

The reasons we choose military instructors

The reason why we want to interview military instructors because this job is going to be disappeared in senior high schools. In fact, although military instructor usually looks serious, but he is nice in private. We want to understand that what does he look like in his own life, and know this job better. We think military is very cool, and it is hard to see in our daily lives. He has a lot of influence on senior high school students.

About military instructors

He wants to be a military instructor because his father is also a military and he wants to be a military instructor because he wants to be more clear with the students. He thinks Dazhi senior high school is great and also the students in DZSH are good. He thinks that the job military instructor is going to leave the school means that his mission is clear, and he said after he leave the school he will maybe become a driver or selling the fry chicken.

Director of school's library

Last Wednesday, we interviewed director of the school's library. Why did we choose him as an interviewee? Because we want to know more about school's library. We all like to read books and think being a library director is special thing in the school. So, we prepared four questions to ask him. After he answered our questions, we know more about his job. He has been working in school for 18 years, but he recently came to the library to work. He thinks that people with patience and strength can come to the library to work. He also said that doing a plan to promote work. He also said that doing a plan to promote work. He also said that doing a plan to promote work. He also said that doing a plan to promote work.

Being a librarian is powerful. Because you need to go many things, like move the books, confirm the number of books. So I think we need be quiet and keep in order to make it easy for librarians to manage the library, let them not be too tired. next time go to library. PLEASE DO IT! 🍷

Interview with the military instructor

The reason why we want to interview military instructor because this job is going to be disappeared in senior high schools. In fact, although military instructor usually looks serious, but he is nice in private. We want to understand that what does he look like in his own life, and know this job better. We think military is very cool, and it is hard to see in our daily lives. He has a lot of influence on senior high school students.

He is an army. He wants to be a military because his dad was a military, too. The reason why he is a military instructor is that he would like to get close to students. He wants to do a job that he can do in his own life. He has a wife and two children. After he leaves the campus, he is going to see his children and drink or be a driver.

Humans of Dazhi High School

Last Sunday in Dazhi senior high school there is a class called "Big English", teacher let the students interview the people in school about their job and their feeling. One group interviewed the guard by the gate of the school. The students think that they usually ignore him so now they have to know him more. He protects their safety in school he can't even rest for a while.

The guard have to pass the 380g that they can be the guard.

After the students asking the guard we totally know him more. First he has been Dazhi for 38 year and is 64 years old this year. There also are a lot of problem like students called take-away and some wild dog try to get the school. He look out the car get in and out, get up early to open the gate, let the student go home safely. Although the job of guard is tired, the guard in Dazhi senior high feel happy when he looked the students get in the school. The students in Dazhi also feel thankful to the guard very much. (李德原)

A decorative background featuring a piece of light brown burlap fabric with frayed edges, centered on a light blue textured surface. Two stems of pink flowers, likely snapdragons, are positioned horizontally across the top and bottom of the burlap. The flowers are in various stages of bloom, with some fully open and others as buds. The text is overlaid on the burlap fabric.
