My name is Emily, a senior high school student from Taiwan. I'm glad to know you through postcrossing. It's great to learn that you like cats because I like cats, too. Maybe we can share cats' pictures with each other. My country isn't very big but it's full of beautiful scenery, especially the night view. I also want to visit Germany, maybe you can introduce your country to me. Hope you can visit Taiwan someday. Look forward to your reply.

Sincerely,  
Emily 10/3

Hope you'll

AMNESTY  
INTERNATIONAL

Dear Mr Raisi,

Yasaman Aryani and her mother Monireh Arabshahi were sentenced to 16-year imprisonment because she had violated Enforced Compulsory Veiling law. It makes me surprised. On International Women's Day 2019, she walked through a women-only train carriage, hair boldly uncovered as she handed out white flowers. This courageous behavior was shot and uploaded. So they were captured on April 10. Yasaman only hopes that all women would have the freedom to choose what to wear one day. Please unconditionally release Yasaman Aryani from prison and all other women's rights defenders detained for peacefully protesting against forced veiling.

Yours sincerely,

Miki

Dear Prime Minister of Canadian government,

I'm a student from Taiwan and I know that the people of Grassy Narrows have been hard-hit by mercury poisoning because your government allowed a pulp mill to dump 10 tonnes of waste into a river in 1960s. I think that you should help the residents by providing some medical service and also help clean the water or they will get sick. I feel sorry for them because they don't have a clean environment to live in and I hope you can solve this problem for them as soon as possible.

Yours sincerely,

Patty

## HUMANS OF DAZHI HIGH SCHOOL

Our interviewee, Patrick, who is our English teacher, has been teaching English for years. There are three reasons why he wants to be an English teacher.

Firstly, he thinks that teaching in high school gives him more chances to have interaction with young people. People might lose their passion after working for a long time. He doesn't have that kind of problem because he stays with young students for more than eight hours per day.

Secondly, he gains achievements while teaching others. Giving students new knowledge and answering the things that they are confused about makes him happy.

Last but not least, teaching a global language keeps him and his students updated. He indicated, "As long as you learn the global language, you can receive the newest information in the world. Also, we can communicate with people from other countries."

He has been connected with English for more than twenty years, and he has been fond of teaching other people since he was a tutor in college. Now, he thinks that teaching English is his mission. "The most important ability is not having lots of knowledge, but teaching others and sharing what we have learned," said Patrick.
